Dear Frassati Catholic Academy Families:

We are always working through continuous improvement to serve our students to the best of our abilities. One way to do that is to understand if another language is spoken in the home and/or if your child is speaking another language.

We are collecting this data using the Wauconda District 118 form as you will see there is a testing component that will take place based on the information gathered. Wauconda District 118 would be administering the test; thus, we are using their collection form.

This data will provide information for a variety of stakeholders including the Archdiocese, the District and our classroom teachers. Further down the road at a high level this data can also help secure state funding for our students or staff in the form of resources or professional development.

We ask that every family complete one form for each student in grades Kindergarten through 8th grade and return them to the school by Friday, October 25, 2019.

Please don't hesitate to reach out and ask questions.

Thank you for helping us to continue to provide quality education for our students and have the opportunity to access state dollars to help with their education.

Ms. Tammy Kleckner
Frassati Catholic Academy Principal

The state requires the district to collect a Home Language Survey for every new student. This information is used to count the students whose families speak a language other than English at home. It also helps to identify the students who need to be assessed for English language proficiency. If the answer to either question #1 or #2 is "Yes", the law requires the school district to assess your child's English language proficiency. The results of this assessment determine eligibility for English as Second Language (ESL) and/or native language instruction services and annual English language proficiency assessment.
