January, 2019

Dear Frassati Families,

I hope this letter finds everyone rested and refreshed after Christmas break. It is wonderful to have everyone back and ready to begin the second semester. As I shared in my November update, we are beginning registration earlier than normal for current families. This will allow us to ensure there are seats available for all our current students and we are able to monitor and manage our growth beginning with Catholic Schools Week for new families.

This packet includes several pages to ensure your registration information is accurate.

- The first page is general information regarding the tuition contract. You have received this document before, it is updated to reflect the new bus information.
- Some packets have one contract or two contracts depending on if you have only K-8 students or you are enrolling K-8 and pre-school students.
- The next page(s) is bus registration information. **This is very important to be returned with your contract. This is for anyone who does not live in District 118 and would like to request a bus stop for next year.** There are bulk stops at Santa Maria, OLLO, Round Lake Park District and St. Mary. If you are looking for a neighborhood stop please be sure to check the box next to your home address. I will be working with the bus service in early spring to look at route development for next year.
- The next page is information for FACTS- financial aid applications. Applications opened on December 1st. Please get all information entered by March 1st.
- The final pages are regarding the Tax Credit Scholarship applications for 2019-2020. The application process is opening on January 15th, so please be sure to review the information and be ready to apply when the applications open.

It is very important that we achieve 100% registration of our current students by Friday, January 25, 2019, so we can monitor new registrations opening on January 27, 2019.

It is a pleasure to serve your family and be part of the Frassati Community. On behalf of our pastors and staff we thank you for actively participating in this community and we look forward to continuing our work together.

Verso L'alto

Ms. Tammy Kleckner
